

Applications will be open until 17th June, 2019. This contest promotes ecological transition, by making known existing solutions, which, replicated can have a real capacity to fight against climate change.

It is great to hear that we will have an extra week to apply for the **7th edition of [Green Solutions Awards](#)**, the official **deadline** now is the **17th June, 2019!**

Organised by [Construction21](#), the Awards include a **national phase**, where candidates first compete within their own country, and an **international phase**, gathering the champions of each platform. Originally a competition dedicated to green buildings, the Green Solutions Awards have in recent years expanded their scope to districts and infrastructures in order to take into account a wider variety of sustainable city solutions and actors. The application can be done in one of 3 categories: **buildings, districts, and infrastructure**.

The Green Solutions Awards contest is no longer in its infancy. Organised for the 7th time in a row, this competition gets bigger year after year. First of all, in terms of **communication**: Construction21 took a step forward in 2018 as the 12 web platforms and social media activity generated **4.1 million views**, compared to 1.5 million in 2017.

The Green Solutions Awards present the particularity of **promoting only real projects**, displaying **existing solutions** which are **implemented in buildings, districts and infrastructures**. For Construction21, it is necessary to represent various technologies and their interactions from buildings to cities, as **the industry develops systemically**.

Participating entails a lot of benefits, such as visibility! Throughout your participation, you benefit from a **communication plan set up on all Construction21 platforms, on social media and relayed by nearly 100 media partners**. At an **international level**, but also at a **national level**; **all participating case studies are indeed readable in English, French, Spanish and even Chinese!** Enjoy millions of views generated by the contest! Your projects are also highlighted during **dedicated events** such as **Passi'bat** or **Batimat**, **webinars** or **radio interviews**. A **video** is also offered to the Grand Prizes winners, **presenting their projects**. Easy to share, they will be widely disseminated on the Internet and social media. A **brochure** is also printed in **4 languages** to showcase the winning projects. Finally, by bringing your work to the knowledge of the industry, you will contribute to the dissemination of solutions that, when replicated at a larger scale, will help to fight against global warming.
