Green Solutions Awards: how to vote for your favourite projects?

This national and international competition organised by Construction21 allows you to discover concrete achievements – buildings, districts, or infrastructures – integrating sustainable and reproducible solutions.

While juries of experts are responsible for awarding the thematic prizes (Hot Climates, Circular Economy, New District Grand Prize, Sustainable Infrastructure Grand Prize, etc.), you, professionals in the sector and the general public, are invited to vote for award the User's Choice Award.

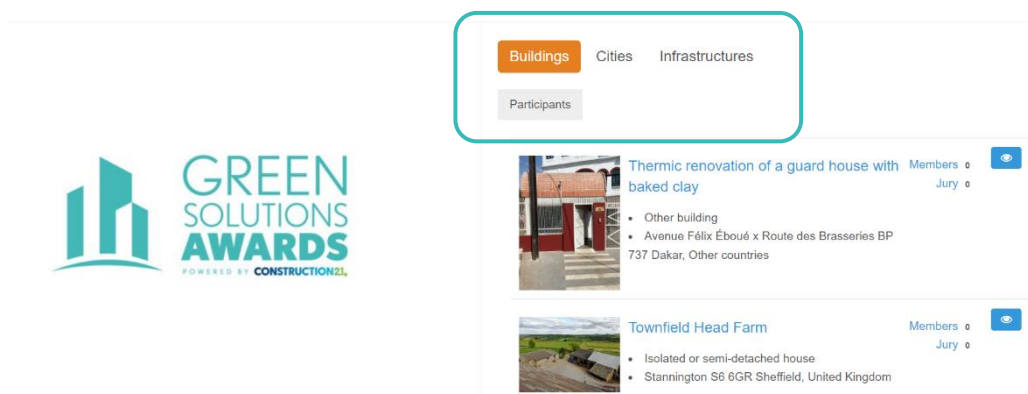

Opening of votes on Tuesday, March 28 for a period of one month.

On Friday April 28th, 2023, at noon (Paris time), the building, district, and infrastructure that have received the most votes on Construction21 will win the User's Choice Award.

You can vote **for as many projects as you wish**, but **only once for the same project**.

Check out the competing buildings, districts, and infrastructures

- 1) To discover all the candidates, go to the international competition page via [this direct access link](#) or via the Awards menu [on the Construction21 international homepage](#).
- 2) The list of all candidates, sorted by category, appears. You can switch from one category to another via the 3 orange buttons: Buildings, Districts, or Infrastructures.

- 3) Click on the name or on the blue icon (eye) to access the full description of the case study of your choice.

Thermic renovation of a guard house with baked clay

- Other building
- Avenue Félix Éboué x Route des Brasseries BP 737 Dakar, Other countries

- 4) Browse through the different tabs: description / stakeholders / energy / solutions...

Give your vote to the projects you support

2 ways:

- 1) From the list displaying all the candidates, like by clicking on the blue icon (thumbs up) of the achievement(s) that you seem to be the most exemplary.

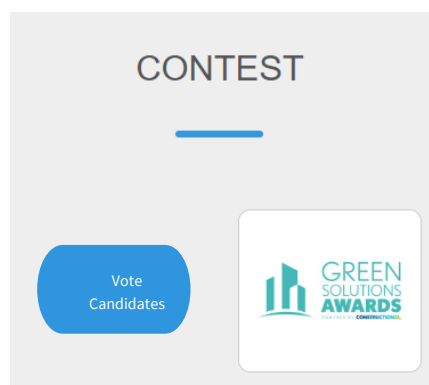

Thermic renovation of a guard house with baked clay

- Other building
- Avenue Félix Éboué x Route des Brasseries BP 737 Dakar, Other countries

- 2) Vote directly from the selected case study by clicking on the “vote” button located in the “contest” tab (on the right)

Vote for as many buildings/districts/infrastructures as you find interesting, but only once for each project.

Please note that you will need an email address to vote. Once you have entered it, you will receive an email to validate your vote.

Invite your network to vote

When your vote is recorded, a window opens to confirm it and allows you to share it on social media (LinkedIn, Twitter, Facebook) or by email.

NB: do not hesitate to inform your network that you have chosen your Green Solutions Awards User's Choices and that you encourage it to do the same. By sharing these exemplary case studies, you contribute to our mission of spreading best practices and concrete solutions!

Don't forget to mention @C21_Int and use the hashtag #GreenSolutionsAwards in your posts!

To your votes!
