

Green Solutions Awards: the 2017 edition has officially started!

16 March 2017

On March 15, Construction21 launched the 5th edition of the Green Solutions Awards at MIPIM in Cannes, France. This international competition of sustainable buildings, districts and infrastructures is supported by ADEME and the Global Alliance for Buildings & Construction. It aims to widely disseminate innovation in order to accelerate transition to a more sustainable world. The winners will be announced in Bonn, Germany, in November, during the Conference of the Parties on climate change (COP23).
