

Green Solutions Awards 2018: launch at MIPIM on March 15

Every year, the Green Solutions Awards come back. And 2018 is no exception! This year, this international competition of sustainable solutions organised by the Construction21 network will be launched at MIPIM, on the BNP Paribas Real Estate booth (R7.E73) on March 15 at 11am.

Disseminate innovation

Built by the different Construction21 chapters in Europe, Maghreb and China, the Green Solutions Awards aim to accelerate the transformation of the sector towards sustainability by giving professionals from all over the world the opportunity to see exemplary buildings, districts and infrastructures.

The contest features a national stage, then an international final, where the winners are selected among the champions of each country. The international awards ceremony will take place in December at COP24 in Katowice (Poland).

Promote the know-how of pioneers

This competition represents a powerful tool for visibility for industry professionals: a case study published as part of the Awards is translated into all the Construction21 languages (English, Spanish, Italian, Chinese...) and seen by thousands of other professionals around the world. Participating in the contest is a great way to show your expertise beyond your usual circle, to find new clients or new partners.

In 2017, the Awards generated 1.5 million of views . [Read +](#)

Launch on March 15 at 11am at MIPIM (BNP - booth R3.E73), Palais des Festivals, Cannes, France

Are you interested in the Green Solutions Awards? Come and meet the Construction21 team at the BNP Paribas Real Estate booth (R7.E73), one of the sponsors of the competition, on the 15th of March at 11am to attend the launch of the 2018 edition. We will explain in details what are the stakes of it and how to participate. It will also be an opportunity to ask all your questions to the winners of the 2017 edition who came to testify.
