European leader in real estate services, BNP Paribas Real Estate intends to play a key role in urban transformation and "share its vision of the sustainable city of tomorrow". Among its commitments, the group supports the Green Solutions Awards and, in particular, the Grand Prize for Sustainable Construction.

Catherine Papillon, Sustainable Development Director / CSR, explains the reasons for BNP Paribas Real Estate's involvement in the competition and the solutions proposed by the Group throughout the real estate chain to anticipate and respond to climate change issues. Check out his interview!
