Data reliability

3rd part certified

TERRITORY

Type of territory

The quarter 1377 AADL Housing is a urban area bounded by a city and its surroundings. The main economic activities of this area are mainly the tertiary sector (management, sales, administration, services). The urban environment is therefore characterized by the nature of jobs found there as well as the quantity of services offered there: hospitals, schools and universities, public transportation, etc.

Climate zone

[Csa] Interior Mediterranean - Mild with dry, hot summer.
